

# OUR LADY of MERCY

## 2017-2018 Technology Needs/Wish List

This year will bring many new changes on Mercy's campus with the addition of our new Lower School building. It is so exciting to see our campus grow in so many wonderful ways. As our campus grows so do some of our technology needs. This year, we have broken it down into two lists. On the first list, you will see are our most immediate technology needs and requests. The list located on page 2 of this document is our list of specific request from teachers surveyed at the beginning of this school year. If you have any questions please contact our Instructional Technology Coordinator, Jacquelin Bello at [jbello@olomschool.org](mailto:jbello@olomschool.org). We hope you prayerfully consider a donation to our growing technology program.

### *Most Immediate Needs:*

Device	Goal	Specifications	Purpose	Cost
iPad Class Set	1 New iPad Class set	Latest iPad 128GB 1 Class set = 32 iPads	The first iPad cart Mercy purchased is now over 5 years old. It has done wondrous things for our teaching and for our students, but it is time to be replaced.	\$429/iPad
iMac	24 Devices	21.5" iMac 3.0GHz quad-core, 256GB Flash Storage, Magic Mouse and Magic Keyboard with Numeric Keypad	Our goal of refreshing our Mac Lab, that is now in its 8th year of use, is well underway with the addition of 9 new computers last year. We have 24 more to go. Devices that are currently in use in the lab that are still in great working condition will be repurposed in various classrooms across campus.	\$1,529/iMac
iPad Adapters	20 Adapters	Lightning to VGA Adapter from Apple	Many teachers have requested an adapter to allow them to display their iPads on their Promethean boards or projectors. This aids in whole class demonstration, presentation and sharing from the iPad.	\$49

# 2016-2017 Technology Wish List:

## Teacher Requests:

Device	Goal	Specifications	Purpose	Cost
Ziggy Document Camera	8 Devices	Ziggy HDPlus Document camera from IPEVO	Teachers utilize document cameras to present material and model various items throughout lessons. It is also a fantastic platform used to share student work. We have 8 teachers who have requested document cameras this year.	\$99

## ***Sponsor a TECH TUB!!***

Two years ago, we began a Tech Tub Pilot Program. A Tech Tub is a set of 6 iPads permanently placed in a classroom for daily use. The program saw so much success we would love to continue the model throughout our campus. This year we have had over 12 teachers request Tech Tubs in their classrooms! The cost of the tub includes 6 devices, cases, storage, and credit towards purchasing apps. Our goal is to outfit every classroom with a Tech Tub.

\$3,000

Apple TV	4 Devices	Apple TV 4th Generation (32GB)	Apple TVs are used in the classroom to seamlessly transition from various Apple Devices used in the classroom. The teacher is also able to access amazing content to create engaging lessons.	\$149
----------	-----------	--------------------------------	---	-------

Promethean Board	ActivBoard Touch 88 with projector  *Please contact Jacqueline Bello for additional specs as each classroom has various logistical needs.	Promethean Boards are used to increase student engagement through interactive presentations geared towards reaching all learners through visual, auditory and kinesthetic tools, which is vital to the Lower School Classrooms some of these boards would be serving. These boards would be replacing many that have reached the end of their life as well as classrooms that have not previously had Promethean Boards.	Approximately \$3,000-\$4,000/device
------------------	---	--	--------------------------------------

If you have any questions, please contact our Instructional Technology Coordinator, Jacqueline Bello.
