

Our Lady of Mercy School has retained Wynn L. White Consulting Engineers, Inc. to provide professional asbestos consulting services. Previous asbestos inspections and asbestos management plans included work to evaluate asbestos containing materials identified during inspections, identifying materials suspected of containing asbestos, sampling those materials, analyzing the samples, making a hazard assessment, making recommendations, and preparing Asbestos Management Plan updates.

The asbestos management plan for the school is on file at the school, the Catholic Schools of the Diocese Offices, and at the following location:
