What are the benefits to having a program like this at your school?

- Grace Notes School of Music will provide your child a musical education of excellent quality.
- Convenience is very important to parents, who may want enrichment for their children but may not want to drive somewhere for lessons each week. Instrument rentals may also be available.
- Children will perform on concerts at the end of each semester, which provides them with valuable life experience and opportunity for self-expression.
- **The Grace Notes School of Music website will have a separate sign-up button for Our Lady of Mercy parents.** For questions about this program please contact Dr. Borislava Ilcheva (concertmaster of the Baton Rouge Symphony Orchestra) **by email or by text message**. Thank you for your interest!
